Vertical logo

We emphasize the importance of maintaining the integrity and visibility of our logo across various platforms and materials. For the vertical version of our logo, typically used in scenarios such as letterheads, business cards, and vertical banners, we recommend adhering to specific dimensions to ensure clarity and consistency. The ideal height for the logo is 1 unit, with proportional width to maintain its visual balance. Additionally, it's crucial to allocate sufficient white space around the logo to prevent visual clutter and enhance its prominence. We advise maintaining a minimum clear space equivalent to 1 unit on all sides of the logo. This white space ensures that our logo remains distinct and recognizable, whether it's displayed on digital platforms, printed materials, or any other medium.

Horizontal logo

We emphasize the importance of maintaining the integrity and visibility of our logo across various platforms and materials. For the horizontal version of our logo, typically utilized in contexts such as website headers, signage, and promotional materials, we recommend adhering to specific dimensions to ensure clarity and consistency. The ideal height for the logo is 1 unit, with proportional height to maintain its visual balance. It's essential to allocate sufficient white space around the logo to prevent visual clutter and enhance its prominence. We advise maintaining a minimum clear space equivalent to 1 unit on all sides of the logo. This white space ensures that our logo remains distinct and recognizable, whether it's displayed on digital platforms, printed materials, or any other medium.

Typography

Typography plays a pivotal role in shaping the visual identity and personality of a brand, and for OTASKI, it's no exception. Our brand guidelines underscore the significance of selecting and consistently using typefaces that resonate with our brand's essence and values. Typography not only communicates the content but also conveys the tone and character of our brand message. Whether it's on our website, marketing materials, or product packaging, the choice of fonts influences how our audience perceives and interacts with OTASKI. By defining specific typefaces, font weights, sizes, and styles in our brand guidelines, we ensure a cohesive and harmonious brand experience across all touchpoints. This meticulous attention to typography reinforces brand recognition, fosters trust, and cultivates a lasting connection with our audience.
